ON behalf of the Foxy Ladies group I welcome you to our 5th annual female production sale in West Point, NE. Last year's females produced some great calves in the show ring both near and far and others set the scales down in the sale barn. At the risk of sounding like a broken record, I honestly believe this is the strongest and the most consistent group of females from the top to the bottom. The consigners' aim have been to improve our genetics every year, so the cows whether they produce a fancy show heifer or raise a great herd bull or sell more pounds at the local sale barn. No flowery words are in the catalog footnotes; just study the catalog and the females and they will speak for themselves. Come join us at the West Point Livestock Market for an evening of watching Foxy Ladies females as a potential buyer or just to join us for a meal and some social entertainment the Saturday after Thanksgiving. We will try to roll out the red carpet for you.

Give any one of us a call, we enjoy talking about cattle and how our cattle can fit into your operation and let us know how past females are working for you. I know there have been a lot of success stories out there and we always love hearing about them.

I hope to see you Saturday night in West Point. *James Felt*

Broker has done it time after time and this by far has to be some of the best work that the bull has to his credit. I know that I have never sold a bred, an open or anything of this caliber before in my life time. I feel this is what a donor cow or any kind of cow should look like. She is so big middled and easy fleshing--she could stay fat in a rock garden. Her structure is second to none and she keeps this all tied together in a complete feminine package. I don't care what you bred this one to-- a Simmental, a three-legged goat or a hairy hamster (club calf bulls), it's destined to be great. These are the kind that pay their way and pay the bills. We all wish we had more of these. She is the result of some embryos purchased from Tim Schaeffer that goes back to a Northern Improvement cow, so she is bred to be great on both sides. Don't hesitate on this one--bid fast and bid often.

Sired by the immortal Broker bull that has made a huge impact on the Simmental breed. I had to arm wrestle my mother to talk her into selling this one. I won't tell you the outcome of that, but I did persuade her to let me sell this one. This one is so neat in her shoulder and neck and might be one of the best females that I have ever sold. You don't find many in this breed or any breed that are built like this one, so raise your hand high and wave at Jared. Make sure you are the lucky one to take Miss Delaney home with you.

Sells AI/NS Bred - Due 3/1

Okay, I swore I was not going to sell any of our Bismarck sired heifers because they make such tremendous mother cows, but here is one for you to buy. This female is a typical Bismarck female where she is feminine fronted with depth, softness and shape of rib. She combines all that with excellent feet and legs. She will be an awesome mother. As an added bonus, her mother's sire is a full brother to WCS Pendleton 909w that is owned by Quandt brothers and Travis Thompson. Her grandmother had a bull in our Denver pen, also. She sells bred to W/C Executive.

Sells AI Bred - Due 2/14

You could look at Ms Uno all day. She is so feminine and angular in her make up with depth and shape of rib. Her design is flawless and she moves around like a cat. We have had over five generations of her maternal side on our place. That tells us that predictability is built into this female. This will be one of your last chances to own an Uno daughter as we had to put him down. Uno won the NAILE as a yearling. Her maternal grandsire is the sire of WCS Deadwood and WCS Husker that are working for Werning's in South Dakota. Her calf by W/C Executive will be one to write home about for sure.

Sells AI Bred - Due 2/13

This female is flat good! She is elegant in her design. She's long fronted, deep bodied and flawless in her structural makeup. Her mom is young, but doing a tremendous job. We kept her first calf that calved this spring and weaned a 700 lb. bull calf. Her grandmother and great-grandmother are still producing for us, too. Longevity is built into this female. Ms. Hammer is going to make a tremendous brood cow and could easily end up in your donor pen. She is AI bred to the Executive bull (full brother to Executive Order), which was one of the high sellers at Wernings this year. We had the pleasure of running this young herd sire. He held up great and we can't wait to see his calves. The resulting calf could pay for the cow in the first year. Plus, there's added bonus, as she offers an outcross pedigree with a solid EPD profile.

Then you move back into her long sweeping rib shape, and there's great depth and softness of rib. She is long and level in her hip with a smooth tail head. Then when you get behind her you appreciate her for her thickness and overall width and mass. Ms Willie moves with long soft stride. Her feet are perfect in design and shape as well. Plus, her mom is by WCS Pendleton, grandmother is sired by 600U and her sire is by 3015N. As an added bonus, she has a 129 API and outcross pedigree. Should be keeping this one at home. She is bred to W/C Executive.

If you are looking for that next great blaze face purebred—here she is. Ms Willey has that killer look combined with outcross genetics and very good genomic profile. She is thick and stout made and combines that with length, softness and feminine in her look. She is super sound and agile in her movement. Ms Willey has some of our very best cows in her pedigree top and bottom. The 3015N cow is one of donors that has raised numerous great ones for us. Her resulting baby by W/C Executive will be a stand out, I bet. It's very hard to sell this heifer, as I love baldies.

WOW what an exciting young female here! Ms Thunder is freaky in her front end, as she is flat shouldered, long and clean in her neck. She comes out of her shoulder smoothly into her rib cage, which is deep and soggy with tons of capacity. Her hip is long and level in its makeup. She is flawless in her design and moves like a cat. The 6125D bred female is a maternal sister to lot 92. So, you can see the power in the cow family here. Her sire, Track On was the NWSS Reserve Calf Champion in his only outing and then we made him a herd bull. A son of his last year was calf champion at the NAILE and NWSS for the Tingles. I would rather own this one than show against her. She will be in the purple and then make a tremendous momma cow. Her pedigree and EPD profile is flawless. Ms Thunder is destined for greatness.
